

G.B.M. S.p.A.

**Italian Industrial Supplier for Diesel
Engine & Heavy Equipment Spare Parts**

since 1948

Keeping your machines running.

Supporting construction, industry and infrastructure development worldwide.

About Us

Reliable Industrial Supply

G.B.M. S.p.A. is an Italian company with more than 75 years of experience in supplying industrial spare parts and technical components.

Through a strong network of international partners and extensive export experience, G.B.M. provides reliable solutions for diesel engines, construction equipment and industrial machinery.

Reliable Industrial Supply

- Construction projects
- Infrastructure development
- Industrial applications
- Heavy transport

Why GBM

- Reliable export logistics
- Technical spare parts support
- Wide product availability

Diesel Injection

Reliable Industrial Supply

G.B.M. supplies a wide range of diesel injection spare parts used in maintenance and overhaul of diesel engines.

Our range includes:

- Injector nozzles
- Plungers and elements
- Complete injectors
- In-line injection pumps
- Precision valves and components
- Overhaul spare parts for injection systems

Diesel Injection

Components

PENCIL NOZZLES DIESELSTICK®: a range of “pencil” injectors designed for earthwork applications and agricultural tractors, such as those manufactured by JOHN DEERE, CATERPILLAR, FORD, etc.

dieselstick

Diesel Injection

Components

A wide range of fuel injectors and speed governors for leading industrial diesel engine manufacturers.

Diesel Injection

Components

A wide range of injection spare parts for the maintenance of the fuel engine system mainly in regions where the fuel can be contaminated.

Diesel Engine

Components

We supply spare parts for diesel engines used in industrial, construction and heavy-duty applications.

Supported engine brands include:

IVECO

Cummins

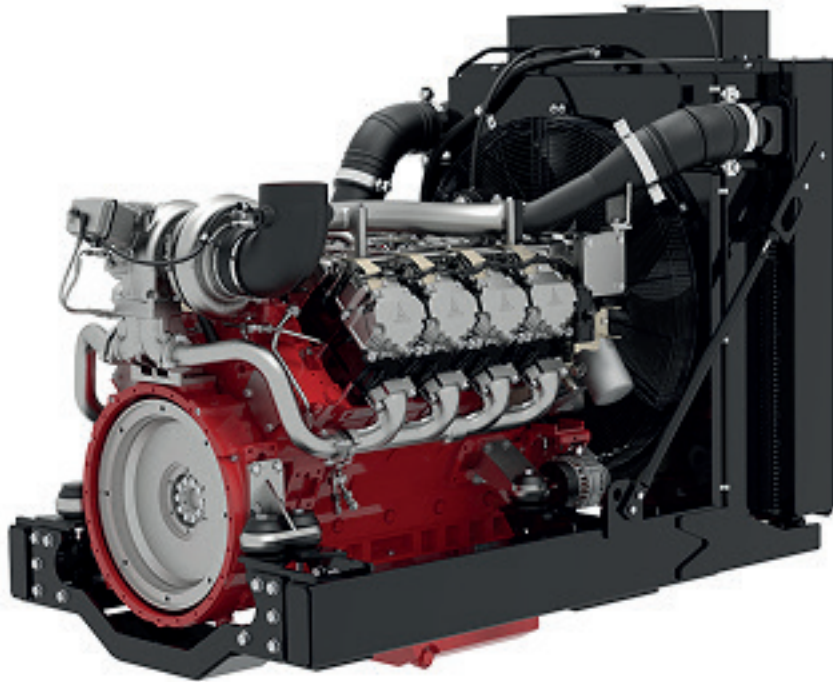

Perkins

Available components include:

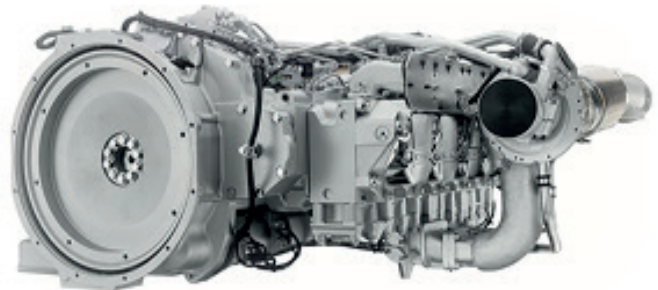

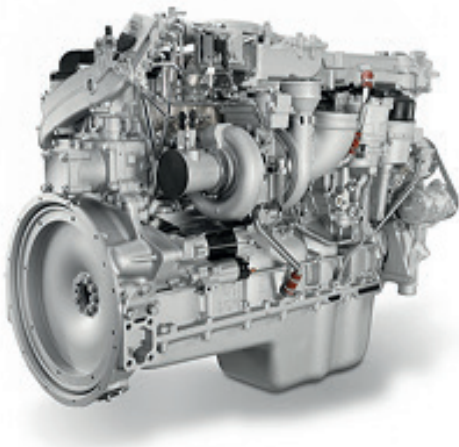

- Engine parts
- Overhaul kits
- Cooling system components
- Lubrication system parts
- Gaskets and seals.

Diesel Engine

Components

We are able to deliver the spare parts of the leading engine diesel manufactures and we are partners of Deutz engine manufacture. We can also provide exchange engines solution with a program of overhaul and repair support.

We are also MAN partner providing genuine spare parts and overhaul and repair service

Construction machinery

Spare Parts

G.B.M. supplies spare parts for construction machinery, cranes, industrial vehicles and earthmoving equipment.

Supported brands include:

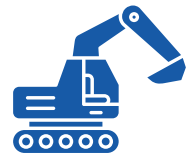

- ASTRA
- IVECO
- TEREX
- BENDINI
- LOCATELLI
- CNH
- KOMATSU
- CATERPILLAR.

Transmission and driveline components:

- ZF
- CLARK
- ALLISON

Construction machinery

Components

With a long expertise in procurement activity, we assist contractors in identifying and acquiring a large range of parts and components. We manage the entire supply chain lifecycle, from the purchase order phase through to final logistic, serving international plant locations

Industrial filtration

Components

G.B.M. supplies filtration solutions to ensure maximum engine performance and durability.

Brands:

- Fleetguard
- Donaldson
- GFT Solution.

Thanks to the technical support provided by the GFT team, we are able to offer turnkey filtration systems for diesel tanks dedicated to Power Genset Stations.

Industrial filtration

Components

G.B.M. S.p.A. proudly positions itself as a distributor of Fleetguard (Cummins Group) and Donaldson, specialists in the design and manufacture of filtration systems for diesel engines and hydraulic circuits installed on railway vehicles. In addition to a wide range of filtration elements, G.B.M. S.p.A. is able to supply custom-built air filters designed according to specific dimensions and technical requirements requested by the customer.

GBM Export

GBM team is in touch with customers, suppliers people & goods across different countries. Shoul you have any requirements, please feel free to ask; we will provide the best support every step on the way, right to your doorstep.
